## RESEARCH ASSET

### *Post Disaster Reconstruction*

The project “Wounds of War” aims to improve policy making on post-conflict reconstruction through interdisciplinary fieldwork. The “Post Disaster Reconstruction” project consists of three phases: the preparatory stage, the research and the dissemination of our findings.

**REVALORISE**<sup>+</sup>  
enhancing research impact

[www.revalorise.eu](http://www.revalorise.eu)

## POTENTIAL VALORISATION AREAS

- Collaboration with reconstruction industry
- Collaboration with governments
- Collaboration with nongovernment

## DESCRIPTION OF VALORISATION ACTIVITY

We aim to make a lasting change to post-conflict reconstruction by introducing inter-disciplinary research and fieldwork in policy making

*This project aims to improve post-conflict reconstruction strategies through interdisciplinary fieldwork*

## VALORISATION TARGETS/POTENTIAL FUTURE COLLABORATORS

Short description of the stakeholders that can be important for future collaborations:

Governments, NGOs, INGOs, Reconstruction sector, Culture Sector, Tourism Sector
