Email Address

e.celik@tudelft.nl

Institution Name

Delft University of Technology

Country

The Netherlands

Research Area

Business and Economics

Thematic Focus:

entrepreneurial ecosystems

Stakeholders involved

Centre for Entrepreneurship, incubators, tto's

Research Phase

Data collection

RESEARCH ASSET

Entrepreneurial ecosystems and the broader context: Differences across countries

The theoretical lens used in this project is National Business Systems Framework which is drawn on institutional theory.

The study treats entrepreneurial ecosystem actors as part of a National Business System and aims to explain the dominant forms, strategies, and relationship types of ecosystem actors with respect to particular characteristics of the business system they emerge and operate in.

REVALORISE⁺
enhancing research impact

www.revalorise.eu

POTENTIAL VALORISATION AREAS

- Collaboration with startup incubators and TTO
- Contribution to the training of startups

DESCRIPTION OF VALORISATION ACTIVITY

Workshop on Leveraging Entrepreneurial Ecosystem

- The workshop targets early-stage startups as participants
- Practical workshop content will be created.
- An ecosystem evaluation canvas will be designed
- The content and the canvas will be tested with students
- The workshop will be piloted with partners at the university

This program helped me to create a step-by-step plan for valorising my PhD project.

VALORISATION TARGETS/POTENTIAL FUTURE COLLABORATORS

Stakeholders for different stages

- Validation of the idea: Startups in personal network
- Testing of the workshop concept: Delft Centre for Entrepreneurship
- Pilot of the final workshop: Yes Delft University Business Incubator
- Launch of the workshop program: Incubators in NL
